

Chirag Singh

Faridabad, Haryana, India | [linkedin.com/in/iamchirag06](https://www.linkedin.com/in/iamchirag06)
Third-Year Computer Science Student | Java Full Stack Developer

EDUCATION

- Satyug Darshan Institute of Engineering & Technology** Faridabad, Haryana
Bachelor of Technology in Computer Science Aug 2023 – Jun 2027
 - Relevant Coursework: Data Structures, Algorithms, Object-Oriented Programming, Database Management Systems
- Central Board of Secondary Education (CBSE)** India
12th Grade, Science (Non-Medical) Graduated 2023

TECHNICAL SKILLS

Programming Languages: Java (Core & Advanced), SQL, JavaScript, HTML, CSS
Frameworks & Technologies: Spring Boot, Maven, Hibernate, RESTful APIs, Multithreading
Databases: PostgreSQL, MySQL
Developer Tools: Git, GitHub, IntelliJ IDEA, Eclipse, Postman, VS Code
Core Competencies: Object-Oriented Programming (OOP), Data Structures & Algorithms (DSA), System Design, Deployment, Debugging, Problem Solving

EXPERIENCE

- Co-Lead** Nov 2024 – Present
SDIETTECHIES SDIET, Faridabad
 - Leading a technical community of 100+ students, organizing coding competitions, workshops, and hackathons to foster technical skill development
 - Coordinating with team members to plan and execute technical events, improving student engagement by 40%
 - Mentoring junior students in Java programming, DSA, and web development, conducting weekly study sessions
 - Managing technical resources and collaborating with faculty to align club activities with curriculum goals
- Project Intern** Nov 2024 – Dec 2024
Edunet Foundation Remote
 - Developed scalable backend solutions using Java and Spring Boot, implementing RESTful APIs for data management
 - Designed and optimized PostgreSQL database schemas, reducing query execution time by 30%
 - Collaborated with cross-functional teams in an Agile environment, participating in daily standups and sprint planning
 - Implemented multithreading concepts to improve application performance and handle concurrent user requests

PROJECTS

- E-Commerce Backend System** Spring Boot, PostgreSQL, REST APIs
Full Stack Java Application
 - Built a complete backend system with user authentication, product catalog management, and order processing using Spring Boot
 - Implemented JWT-based authentication and authorization, ensuring secure API endpoints
 - Designed normalized database schema with 15+ tables, implementing complex joins and transactions
 - Integrated payment gateway APIs and deployed the application on cloud infrastructure
- Task Management Application** Java, Maven, PostgreSQL
Console-Based Application
 - Developed a multi-user task management system with CRUD operations and deadline tracking
 - Applied OOP principles including inheritance, polymorphism, and encapsulation for clean code architecture
 - Implemented data persistence using JDBC and PostgreSQL, with connection pooling for efficiency

ACHIEVEMENTS & CERTIFICATIONS

- **HackwithMAIT 5.0** – Participated in inter-college hackathon, developed innovative solution for real-world problem
- **Buildathon 2025** – Certificate of Participation for building scalable application prototype within 24 hours
- **WEBXPLORE** – Completed web development competition, demonstrating proficiency in full-stack technologies
- **Conservation Geography Certification** – Completed specialized course on environmental data analysis
- **Training and Development Certification** – Recognized for leadership and mentoring capabilities
- Solved 200+ DSA problems across platforms (LeetCode, GeeksforGeeks, HackerRank)
